LIST OF SURGEONS AND MEDICAL DEPARTMENT INSTRUCTIONS

Surgeons will attend, when called upon officially, to all cases of accident occurring to employes or passengers. In cases of sickness it is the intention to limit medical service to the locality or town where a surgeon resides, unless some urgent necessity exists, for which distinct official authority must be had in accordance with established regulations. Railway officials are required to call on the nearest authorized surgeons whenever practicable, when surgical or medical services are needed. When such are accessible, no responsibility will be assumed for bills for medical services rendered by any other physician. In the event of a sudden emergency, arising from accident, if necessary, proper surgical aid should be procured until the arrival of a regularly appointed surgeon, when the case should be placed in his charge, and in no case should the services of any but an authorized company surgeon be continued after such surgeon is able to assume charge of the case.

Boarding and nursing are furnished only at hospitals with which arrangements have been made. No responsibility will be assumed for bills incurred elsewhere unless specially authorized or approved by the Chief Surgeon.
