

SOUTHERN PACIFIC COMPANY

CIRCULAR 4

LIST OF

OFFICERS, AGENCIES, STATIONS, ETC.

ISSUED JANUARY 1, 1956*

CANCELS AND SUPERSEDES ALL PREVIOUS ISSUES

(Subject to amendment by revised pages from time to time)

ISSUED BY

ACCOUNTING DEPARTMENT

SAN FRANCISCO, CALIFORNIA

*List of officers revised to include subsequent changes to April 2, 1956, unless otherwise indicated.

The Lines of Southern Pacific Company are divided into the following operating divisions, viz.:

Western Division	San Joaquin Division
Sacramento Division	Los Angeles Division
Salt Lake Division	Yuma Division
Shasta Division	Tucson Division
Portland Division	Rio Grande Division
Coast Division	

The different Divisions follow through the body of book in the order shown above.

The various lines embraced in each Division are arranged in body of book as follows:

First, sections of main lines between principal junctions in the order they are reached in going from San Francisco; then branches in alphabetical order under their individual names and designation.

NOTICE

The information given in this book is corrected to the date of issue under the direct authority of the heads of departments.

Each employe is requested to carefully examine that portion of each issue, concerning which he has personal knowledge, and to give notice to the Vice President and General Auditor of any error, however trivial, that may be found.

This book is not for use of the public, but is compiled for general information only of Company employes. Its contents must not be used as official authority in any manner in connection with the computation of freight or other charges. Official tariff publications are to be used for that purpose.

CORRECTION NUMBER SHEET FOR CIRCULAR 4

Complete pages will be revised from time to time as a means of constantly keeping Circular 4 on a current basis. When any page is revised, or page added, a correction number (issued in numerical order) with date new or revised page is issued, will appear in the lower left corner of the page revised, and, therefore, if recipients check off "correction number" as reissued pages are received, they will be able to make sure that ALL corrected pages have been received. Recipients finding that any of the pages issued under a particular "correction number" have not been received, should request the missing pages from Vice President and General Auditor, 65 Market Street, San Francisco 5, California. Each revised page will show sequence of the page revision, or whether page is a new one.
