Rock Island

Heads-up railroading . . .

from the new Rock Island.

Fast freights in our new "hot schedule" program feature "pre-blocking" and at intermediate points cars are added or taken off while our highballing freights stay on the main line. Goodbye time consuming yard switching.

Hot scheduling is quite an innovation. But it's the kind of heads-up railroading you can expect from Rock Island. Over-the-road performance is undergoing dramatic improvement. Shippers are getting the best in equipment and rates. See your Rock Island sales representative for full facts on our fast freight service. We're really on the move!
