Cibolo Valley is flag-station for Nos. 7 and 8.

Glidden Yard Limits: From Gravel Pit Switch west of Glidden to east end of Colorado River Bridge.

San Antonio Yard Limits: From 2,000 feet east of M. K. & T. Junction to 2,000 west of I. & G. N. Crossing.

Eagle Pass Yard Limits: From centre span Rio Grande River bridge to Hartz Mine Spur. All trains will keep sharp lookout for switch engine within these limits.

All trains will pass through Rosenberg Yard with train under control.

Main Line Freight trains will look out for branch trains inside Yard Limits at Spofford.

Trains using H. & T. C. tracks between Chaney Junction and 5th ward yards must observe the rules and regulations governing the operation of trains between these points.

The following instructions govern the operation of the *Hall Electric Signal*, west end of Houston Yard :

All trains upon leaving the yard over old line will turn *signal* at west end of *Houston Avenue* to *red*. East-bound trains finding signal against them must not pass the *Inman Compress switch* until signal is turned to clear or a train or switching engine has arrived.

When the signal at the *Inman Compress* is at clear east bound trains can proceed, first turning to *red* the signal operated east of *White Oak Bayou bridge*.

West-bound trains finding the *White Oak Bayou* signal against them *must not proceed* until signal is turned to *clear* or train or switching engine has arrived.

East-bound trains entering Houston main yard will be governed by the position of the *electric signal* on the south side of track, 270 feet east of *White Oak Bayou bridge*. The normal position of this signal, day and night, is at *red*. When changed to *white* trains can proceed into the yard. The same applies to *west-bound* trains; the position of the signal on the north side of track opposite that of the south will indicate whether the track is clear or not and trains will be governed accordingly.

All trains will pass through Flatonia yard limits with train under control and look out for S. A. & A. P. passenger trains using main track at the transfer.

All west bound trains will approach M. K. & T. Junction under control and prepared to stop if G. H. & S. A. main line is occupied.

Crossing gate established at intersection G. C. & S. F. and G. H. & S. A. R'ys at Rosenberg. When found obstructing G. H. & S. A. track, turn it to obstruct G. C. & S. F. line, providing the crossing is not being used by G. C. & S. F. train at the time. Trainmen will operate the gate. The gate can be left as turned. All trains must make the usual stop, as required by law, regardless of operation of the gate.
