

DEETZ

1450
Cm 148453+025 B.C.T.
B 8452+153 P.O.T.

LEGEND

- Const'd. Line Shown in pencil
- Two "D" Lines Shown in black
- "B" Line Shown in brown
- Projected "K" Line Shown dotted red

NOTE: Where "D", "B" & "K" Lines are alternative to each other the "D" Line is not to be considered further. The "B" Line is shortest and has best alignment. In case grading is too heavy on "B" Line the projected "K" Line should be run out on the ground starting at "B 8501+04 ± P.O.C. = "K 8501+04 ± cc 240' L which takes 130' out of the 240' Curve on "B" Line. The "K" Line would require the least grading.
