LOS ANGELES DIVISION.

EMPLOYEES' TIME TABLE

IN EFFECT

Sunday, February 2, 1941,

AT 12:01 O'CLOCK A.M.

PACIFIC STANDARD TIME

Superseding Time Table No. 113, Dated October 27, 1940,
and any Supplements thereto.

114

114

This Time Table is for the Government and Information of Employees of this Company only.

E. E. McCARTY,
General Manager,
Los Angeles, Cal.

V. H. WILSON,
Superintendent,
San Bernardino, Cal.

F. B. GRIM,
H. A. SUGARS,
Trainmasters,
San Bernardino, Cal.

O. F. HIGGINSON,
Chief Dispatcher,
San Bernardino, Cal.

L. E. ERLEWINE,
R. C. PIERCE,
C. E. MACHEN,

E. G. TIBBOT,
J. C. SNYDER,
G. H. FERRYMAN,
W. B. CASH,

F. J. MacKIE,
Assistant General
Manager,
Los Angeles, Cal.

J. W. MURPHY,
Assistant Superintendent,
Harbor District and
Los Angeles Yard,
Los Angeles, Cal.

C. R. PETERS,
Night Chief Dispatcher,
San Bernardino, Cal.

Dispatchers,
San Bernardino, Cal.

ALL DISTRICTS

1. A copy of the book entitled, "The Atchison, Topeka and Santa Fe Railway System, Rules and Regulations of the Operating Department," revised 1927, and of the book, "Rules and Regulations for the Maintenance of Way and Structures," revised 1928, must be in the hands of all employes whose duties are in any way prescribed thereby.

2. Rule S-72: Except as otherwise provided, all eastward trains are superior to westward trains of the same class.

3. The number of tons shown by rate sheet as ordinary rating for engines is based on the maximum grade; but between points where grades and other conditions are favorable more cars can frequently be hauled, and conductors are required to fill out trains to car limit or to full capacity of their engines.

4. Rule 1 (B): Standard clocks are located at Barstow, San Bernardino, Los Angeles, Union Station, First Street and yard office Ninth Street, Redondo Junction (roundhouse), San Diego and National City (roundhouse).

Rule 3: At Riverside, conductors and enginemen of eastward Union Pacific trains, having complied with that company's Time Regulations before starting present trip, may proceed to San Bernardino, and on arrival conductors of such trains must compare time with their enginemen and following this with Santa Fe standard clock, and register for themselves and enginemen on the prescribed form.

Union Pacific passenger conductors and enginemen having compared with standard clock and registered on Santa Fe Form 1633 at Los Angeles Union Station, are relieved from making time comparison and registering on Form 1633 at San Bernardino.

5. Rule 5: At stations named below, schedule time and train orders apply at switch where opposing train enters siding. First class trains must not pass the point where traffic is received or discharged before time shown in schedule.

Cucamonga _____siding east of depot.	Placentia _____siding west of depot.
San Dimas _____siding east of depot.	Anaheim _____siding east of depot.
Arcadia _____siding east of depot.	Capistrano _____siding east of depot.
Santa Anita _____siding east of depot.	San Onofre _____siding east of depot.
Lamanda Park _____siding west of depot.	Carlsbad _____siding west of depot.
Atwood _____siding west of depot.	Del Mar _____siding west of depot.

6. Rule 88: At following stations, the designated switches are "heading-in" points for trains which are required to take siding, and train holding main track shall remain clear until opposing train shall have cleared:

Cucamonga, eastward trains, crossover at Signal 974.
westward trains, crossover at Signal 971.

San Dimas, eastward trains, crossover east of depot.

Kincaid, eastward trains, crossover.

Chapman, westward trains, crossover.

Corona, westward trains, crossover at Signal 233.

Placentia, westward trains, crossover at Signal 21.

Anaheim, eastward trains, second crossover east of depot.

Santa Ana, eastward trains, crossover west of depot.

San Onofre, eastward trains, crossover east of depot.

Del Mar, westward trains, crossover at Signal 2433.

7. Rule 10 (A): Temporary reduced speed signals (yellow flag, yellow disc, or yellow light), will be displayed not less than one mile in advance of locations where speed of trains must be reduced. When so displayed trains must not exceed fifteen (15) miles per hour unless otherwise directed by train order or special instructions until rear of train has passed a temporary resume speed signal (green

flag, green disc, or green light), which indicates the end of the restricted area.

Permanent slow boards, painted yellow with black numerals, will be located not less than 2500 feet in advance of locations where speed of trains must be permanently reduced. The numerals thereon nearest the track indicate the maximum speed for passenger trains and on the field side the maximum speed for freight trains.

Indicated speeds must not be exceeded until rear of train has passed a permanent resume speed board painted green. There may be more than one yellow board in advance of a green board, in which case the reduced speed shown on each yellow board must be observed in succession until the rear of train has passed the green board.

8. Rule 17: In addition to the provisions thereof, trains on siding at night must not display headlight until rear of train on the main track has passed.

Electric headlights must be dimmed:

(a) At meeting points by trains on main track after switch has been lined for opposing train to enter siding, as prescribed by Rule S-89 (A).

(b) Approaching another train in the act of receiving or discharging passengers.

(c) On double track as may be expedient when trains are approaching from opposite direction.

Headlight will be displayed through tunnels.

9. Rule 82 (A): Bulletin boards and books are located at Barstow, San Bernardino, Corona, First Street, Union Station, Redondo Junction, Santa Ana, Oceanside, San Diego, and National City.

10. Rule S-83 is amended to read: A train must not leave its initial station on any district, or a junction, or pass from double to single track, until it has been ascertained whether all trains due, which are superior, have arrived or left.

Rule 83 (A): The second paragraph is amended to read: Before leaving a register station at which it is necessary for the conductor to check the train register, he must fill out Form 1514 and deliver same personally to each engineman of his train.

Riverside, Union Pacific trains will register their arrival and/or departure at Riverside Jct. in Santa Fe register at Union Pacific depot.

At register stations, conductors must personally register their trains, unless relieved therefrom by Form T order, except as provided in the following:

Barstow and San Bernardino, conductors of trains 17, 18, 21, 22, 203 and 204 may register by Form 903. Check of Third District train register at San Bernardino will be accepted as applying to end of double track, Colton and Riverside.

Los Angeles, check of train register at Union Station and First Street will be accepted as applying to end of double track at Broadway and Hobart.

At First Street, first class trains will not register.

Fullerton, Fourth District, first-class trains may register by Form 903 and check register only against superior trains.

11. Rule 86 is amended to read: Within automatic block signal territory, except when signals are inoperative, an inferior train must clear a first class train, or a superior train created by Example (3) of Form G train order, in the same direction, not less than five minutes and must clear the block sufficiently to prevent delay.

12. Rule 93: Yard limits are located at Barstow, Leon-Victorville, Summit, San Bernardino, Upland, Pasadena, Los Angeles, Riverside, Corona, Atwood, Fullerton, Orange, Santa Ana, Oceanside, San Diego, Fallbrook, Escondido, Inglewood, El Segundo, Torrance, Wilmington, Redondo, March Field-Alessandro, San Jacinto, Perris-Ellis, Weisel, Alberhill and Elsinore.

At San Bernardino, between Highland Junction on First District, Signal 832 on Second District, M. P. 4 on Third District, and on Redlands District, just east of Highland Ave. team track and at M. P. 4 plus 4,500 feet near Victoria.

At Los Angeles, between Bridge A-139 on Second District, M. P. 148 $\frac{1}{4}$ on Third District, and M. P. 8 on Harbor District.

At San Diego, between Cudahy Spur and end of track, National City.

At Corona, between M. P. 1 on Elsinore District, and between Signals 222 and 252, Third District.

Within the following limits there is no superiority of trains; all trains and engines must move at restricted speed; responsibility for accident will rest with the approaching train:

San Bernardino: Between Fifth Street Tower and the interlocked signal opposite yard office.

At San Diego: Between the passenger station and National City.

Second class, extra trains, and yard engines moving under these provisions will be expected to avoid delay to first class trains.

Rule 711: At following locations, between limits described, all trains and engines will move governed by automatic and/or interlocking signals, whose indications are superior to class and direction:

San Bernardino-Colton: Between Signal 791 Highland Junction and Fifth Street Tower, San Bernardino, and between Rana and Colton Tower, moving with the current of traffic. On the three main tracks in either direction between interlocked signal opposite yard office, San Bernardino, and Rana, all switches interlocked. When interlocking signal remains in "Stop" position, conductor of train or foreman of engine detained by same must telephone towerman giving train or engine number, and if track is clear and route properly lined, may be authorized by towerman to proceed.

Broadway-Hobart: Between Mission Tower and Hobart, moving with the current of traffic, and on the two main tracks in either direction between Broadway and Mission Tower.

Crossover switches at Downey Avenue and all spur track switches between Broadway and Mission Tower are electrically locked. Spur tracks have pipe-connected derails. Telephones are located at Broadway junction switch and at spur track switches. When interlocking signals remain in "Stop" position or switches remain locked, conductor of train or foreman of yard engine detained by same, must call towerman, giving location and train or engine number, and if track is clear and route properly lined, may be authorized by towerman to proceed.

Fallbrook Junction-Escondido Junction: Between Signal 2232 and Signal 2281.

Second class, extra trains, and yard engines moving under these provisions will be expected to avoid delay to first class trains.

13. Rule 97: Extra trains, the conductors and engineers of which have been furnished clearance card, Form 902, numbered and OK'd by the train dispatcher, and orders designated thereon, are authorized to move with the current of traffic on double track from a district terminal to a district terminal, or from an intermediate station to a district terminal, without Form G train orders; but if provision has been made for the use of a section of double track as single track no extra train may move over such section in either direction without having an order Form G.

A Form G order will be required for all short movements between intermediate stations.

Third District trains will secure clearance card Form 902 before departure at San Bernardino.

14. Rule 103: In addition to the provisions thereof, cars must not be cut off upon grades depending upon air or hand brakes to hold them, but must be placed with the engine.

Rule 103 (A): The second paragraph is abrogated.

15. Rule 104 (A): The first paragraph is amended as follows:

At meeting or passing points the employe attending the switch must not unlock derail or main line switch, nor station himself nearer to main track switch than the clearance point, and, when safe to do so, on opposite side of track, until expected train has been met or passed.

When complying with Rule S-89 (A), after lining and locking switch he must take position not nearer than clearance point, and, when safe to do so, on opposite side of track, until inferior train enters siding.

16. Rule 210: In addition to the provisions thereof, no train will leave its initial station on any district, except where office is closed or not maintained, without receiving clearance card, Form 902, numbered and OK'd by the train dispatcher.

No train will leave Fullerton, Oceanside, Hemet, Vista, Perris or Pier A Yard, (when operator on duty), without receiving clearance card, Form 902.

Union Pacific trains eastward, via Riverside Jct., must receive clearance card, Form 902, before leaving Union Pacific station at Riverside.

17. Rule 221: The second paragraph is abrogated.

Rule 221 (A) applies only to trains taking siding at stations where the train order signal is located between the siding switches.

18. Between Summit and Highland Junction westward freight trains will use, starting at rear end, not less than one retainer for each 40 or more tons in train. On freight trains handling all empties, retainers may be used on alternate cars. The maximum tonnage per operative brake in freight trains Summit to San Bernardino is seventy-five tons.

The use of retainers on trains descending other grades will be left to the judgment of conductors and engineers. When retainers are used on a freight train, speed of such trains must not exceed twenty miles per hour.

19. Rule 310: Following is list of structures:

San Bernardino, Mount Vernon Avenue viaduct over roundhouse leads:

Los Angeles, } Viaduct over tracks to old depot.
First Street.

20. Rule 313: The presence of more than two men on either footboard of an engine, one on each side of the coupler, is prohibited.

Except in lead switching, or when more than one switch or derail is to be thrown, the presence of more than one man on the front end of an engine in direction of movement is prohibited.

Except in lead switching, employes must not ride between engines and cars, and must never do so while couplings are being made between engines and cars.

21. Rule 314: No freight train will run more than seventy-five miles without stopping for inspection.

22. Rule 356: On passenger trains, conductor or brakeman shall pass through train not less frequently than once each forty-five minutes to safeguard the comfort of passengers.

California: Civil Code, Section 2188, provides:

"A passenger who refuses to pay his fare or conform to any lawful regulations of the carrier may be ejected from the vehicle by the carrier. But this must be done with as little violence as possible, and at any usual stopping place or near some dwelling house."

Section 487 provides:

"If any passenger refuses to pay his fare or to exhibit or surrender his ticket when respectfully requested so to do, the conductor and employes of the corporation may put him and his baggage out of the cars, using no unnecessary force, at any usual stopping place, or near any dwelling house, on stopping the train."

23. Rule 360 is modified as follows: Station announcements will be omitted between the hours of 10:00 p.m. and 6:00 a.m., when in the judgment of the conductor they are unnecessary, but should there be any passenger to detrain, a member of the crew must inform such passenger or passengers.

24. Rule 382: Revenue passengers, and employes holding passes stamped "Good on Freight Trains," may be carried on freight trains, but only to and from stations where these trains are required to stop.

25. Rule 391: Standard thermometers are located at Atwood, San Bernardino, Cajon, Summit, Victorville, and Barstow.

Conductors of trains having perishable freight will be governed by instructions contained in SFRD circular 2-I, supplements thereto, and special bulletins with respect to handling ventilators.

SPEED LIMITATIONS

26. The speed of passenger trains will ordinarily be that prescribed in the schedule; but in cases of delay, requiring greater speed in order to enable trains to make meeting points, or to secure connections, the speed may be so moderately increased above that prescribed in the schedule as, in the judgment of the conductor and engineman in charge of the train, may be safe and prudent, due consideration being always given to condition of track and all the circumstances.

Enginemen of trains in which are dining or cafe cars will, during meal hours, regulate speed and manipulate air, rounding curves and making station stops so that train will move smoothly, without jar, and train conductors must observe that this is done.

Maximum speed of passenger trains, forty miles per hour, freight trains, twenty miles per hour, over switches and frogs entering or leaving turnouts at double track junctions not otherwise restricted.

Maximum speed permitted through turnouts is as follows:

No. 8 turnout, 10 m.p.h., 1 mile in 6 minutes.

No. 10 turnout, 15 m.p.h., 1 mile in 4 minutes.

No. 14 turnout, 30 m.p.h., 1 mile in 2 minutes.

No. 20 turnout, 40 m.p.h., 1 mile in 1½ minutes.

On No. 14 turnouts freight trains must reduce speed to 20 m.p.h., and on No. 20 turnouts to 30 m.p.h.

No. 8 turnouts are located within yards.

No. 10 turnouts are located on sidings, crossovers and junctions.

No. 14 turnouts are located at:

Highland Junction—Redlands District switch.

San Bernardino—Double track junction near West Yard Tower.

San Bernardino—Third District double track junction, Rialto Avenue near precooler.

Highgrove—Double track junction switch.

Highgrove—San Jacinto District junction switch.

Riverside Jct.—Union Pacific jct. switch and crossover.

Riverside—Double track junction switch.

Fullerton—Fourth District junction switch.

Orange—Fourth District junction switch east end of yard.

Hobart—Double track junction switch.

Broadway—Junction switch.

No. 20 turnouts—None.

Maximum speed of all trains entering or leaving all other turnouts and crossovers, fifteen miles per hour.

Trains moving against the current of traffic on double track will reduce speed to twenty miles per hour around sharp curves, approaching and passing over spring switches, and where view is obscure and use whistle freely.

Trains handling wrecking derricks, steam shovels, pile drivers or hoists must not exceed twenty-four miles per hour, (one mile in two minutes, thirty seconds), on any portion of the First, Second, Third, Fourth and Olive Districts, and fifteen miles per hour, (one mile in four minutes), on all other districts. This rule not applicable to machines mounted on flat cars with booms tied down.

Trains having dead engines in tow must observe the following speed:

If dead engine has rods down or disconnected with one pair of drivers "swung" or suspended off rail, ten miles per hour, (six minutes for each mile);

With rods down or disconnected, but with all drivers on rail, fifteen miles per hour, (four minutes for each mile);

With all rods up and connected, twenty miles per hour, (three minutes for each mile).

Locomotives operating under their own steam with all side rods in place and one main rod removed, must not be operated to exceed following speeds:

20 MPH			25 MPH	35 MPH
All Freight and Switch Locomotives include types:			Passenger Locomotives Mountain Type Includes	All Locomotives Except Mountain Type Include

Maximum bet. Summit and Highland Jct., all Classes					2	00

A tolerance of ten per cent is allowed on the above locomotives, in "Freight and Mixed" service, or running light. No tolerance on 5001 class.
 Maximum speed of freight trains fifty miles per hour when handled by locomotives with maximum speed in passenger service 50 m.p.h. or greater. No tolerance.

FIRST DISTRICT

Barstow passenger yard, ten miles per hour between interlocker at west end and stock yard switch east of depot.
 Summit, eight miles per hour turning on wye.

Summit to Cajon, freight trains, four minutes for each mile run.

Cajon to San Bernardino, freight trains, three minutes for each mile run.

Passenger trains will consume not less than:

- 5 minutes Summit to Dell
- 2 " Dell to Gish
- 6 " Gish to Cajon
- 6 " Cajon to Keenbrook
- 7 " Keenbrook to Devore
- 3 " Devore to Verdemont
- 7 " Verdemont to Highland Jct.
- 4 " Highland Jct. to San Bernardino

and if stop is made, add the duration of stop, plus one minute, to the above.

Eastward freight trains, Summit to Hesperia, 24 miles per hour, one mile in two minutes 30 seconds.

San Bernardino: between Base Line and Mile Post 78½, forty miles per hour; between Base Line and Fifth Street,

thirty miles per hour; on 10 degree curve between passenger station and Fifth Street Tower fifteen miles per hour.

SECOND DISTRICT

Metropolitan, Rialto, Cucamonga and Upland Foothill spurs, twenty miles per hour.

Between Pasadena and Highland Park, passenger trains, thirty miles per hour and freight trains, twenty miles per hour.

Between Highland Park and Broadway, all trains, twenty-five miles per hour.

Within Los Angeles city limits over all street or highway crossings, fifteen miles per hour.

THIRD DISTRICT

Colton, westward trains, fifteen miles per hour over double-track junction switch.

Olinda, Prenda, Bastanchury and La Habra Valley spurs, fifteen miles per hour.

Within Los Angeles city limits over all street or highway crossings, fifteen miles per hour.

OLIVE DISTRICT

Passenger trains, fifty miles per hour and freight trains, thirty miles per hour.

FOURTH DISTRICT

Venta spur, fifteen miles per hour.
 Anaheim, over Center, Broadway and Santa Ana streets, forty miles per hour.

Passenger trains with Diesel motors ninety miles per hour, with Pacific type seventy-five miles per hour, and with Mountain type sixty-five miles per hour.

REDLANDS DISTRICT

Forty miles per hour.
 Redlands, over Orange Street, fifteen miles per hour.

HARBOR DISTRICT

Fifteen miles per hour over street crossings between Redondo Junction and West Boulevard.

Lairport, over Imperial Highway, fifteen miles per hour.
 Torrance Oil Spur, twenty-five miles per hour.

Wilmington, over State Street and Ford Avenue, fifteen miles per hour.

SAN JACINTO DISTRICT

Between Highgrove and Perris, thirty miles per hour, except Box Springs to Mile Post 4, fifteen miles per hour.

Between Perris and San Jacinto, twenty miles per hour.

ELSINORE AND ESCONDIDO DISTRICTS

Twenty-five miles per hour.

FALLBROOK DISTRICT

Twenty miles per hour.

ALL DISTRICTS

27. Rule 872: The second and third paragraphs are amended to read:

When this test is made by inspectors, air brake clearance card, Form 1184, will be prepared by them and delivered to conductor and each engineman on head end of train, who must have a copy before departing.

This test must also be made when changing crews or engine handling brakes upon any train, except helper engines attached or detached subsequent to such tests, in which case test shall be made as per Rule 875. A test of the train brakes is not necessary when detaching helper engines from the rear of passenger or freight trains, except where otherwise provided.

On passenger trains arriving at terminals where engine is not detached, train switched or angle cock closed, this test will be made in the following manner: The arriving engineman will, after stopping, make a full service application and leave brakes applied on train. Employes making inspection will examine each brake to see that it is applied, then signal for engineman to release and again examine train to see that each brake is released.

Rule 875: At Summit, westward trains and light engines must stop and make the test prescribed.

Rule 876: Trains must be stopped and this test made at: Summit—Trains in both directions.

Box Springs—Eastward trains.

Linda Vista—Trains in both directions.

In making this test before descending heavy grades be governed as follows: When trains are brought to a stop by the use of automatic air brakes, the brakes shall be released and when fully released on rear car an application must then be made to know that brakes are working through train and applied on rear car, when they shall be again released and when fully released and recharged on rear car, train may proceed.

Rule 879: At Summit, eastward trains will make the prescribed test before passing the east switch.

28. Rule 701: Red lights will be used in dwarf signals to indicate "Stop."

29. Rule 460: Engine flues must not be sanded while passing dry grain fields, tule lands, between Devore and Lugo, between Water Street and Pasadena, or other places where fire might result.

SPRING SWITCHES

30. In heading in or out over the following spring switches, trains or engines must not exceed indicated speed. Trailing movements through spring switches must not be reversed until switch has been properly lined. Trains finding point indicators or signals, immediately in advance of facing point spring switches, indicating stop, must examine points before proceeding.

Station	Type	Location	Miles Per Hour	
			Passenger	Freight
Hesperia	Spring	West end westward siding	15	15
Lugo	Spring	West end westward siding	15	15
Summit	Spring	East end eastward siding	15	15
	Spring	West end westward siding	15	15
	Spring	Stem of wye (normally lined for west leg of wye)	10	10
	Spring	West switch west leg of wye (normally lined for westward siding)	10	10
Alray	Spring	East end eastward siding	15	15
Cajon	Spring	East end eastward siding	15	15
Keenbrook	Spring	East end eastward siding	15	15
Devore	Spring	East end eastward siding	15	15
San Bernardino	Spring	Roundhouse lead, Switches 2, 3, 4 and 24 (normally lined for lead)	10	10
Los Angeles	Spring	Redondo Jct.—Outbound engine lead (normally lined for Butte St. lead)	10	10
		Inbound engine lead (normally lined for round house)	10	10
		Outbound engine track 2 (normally lined for track 2)	10	10
Redondo Jct.	Spring	Third District—Switch to east leg of wye	10	10
Hobart	Spring	End of double track	25	20
Riverside	Spring	End of double track	25	20
San Diego	Spring	Stem of wye (normally lined for west leg of wye)	15	15

SPRING POINT DERAIL SWITCHES NORMALLY LINED FOR DERAIL

31. Rialto—Foothill Spur, three-fourths mile from junction with main track.

Cucamonga—Foothill Spur, 300 ft. north P. E. Crossing. Upland—Foothill Spur, three-fourths mile from junction with main track.

Prenda Spur—One-fourth mile from junction with main track.

Olinda Spur—Mile Post 3½.

Trailing movements through above switches must not exceed ten miles per hour and reverse movement must not be attempted until switch is properly lined.

FIRST DISTRICT

32. Double track with automatic signals between Barstow and San Bernardino, trains will keep to left between San Bernardino and overhead bridge aA-40-A, between Thorn and Victorville. (See Rule D-151.)

Double track extends through Barstow passenger yard. Tracks are numbered one to seven. Beginning at depot, No. 1 is westward main track, No. 4 is eastward main track.

Double track extends through San Bernardino passenger yard. Tracks are numbered one to six. Beginning at depot, No. 1 is westward main track, No. 4 is eastward main track.

On eastward track, automatic signals are three-position, indicating "Proceed," "Medium speed" or "Restricted speed" from Signal 782 east of Highland Junction to Signal 572-A, west of Summit, inclusive.

33. Rule 830 (b): At Summit, westward trains finding Signal 561 on westbound main track or dwarf light signal governing movement off the wye track in "Stop" position must wait five (5) minutes before proceeding, unless the signal changes to indicate proceed.

34. Westward freight trains must stop ten minutes at Cajon and ten minutes at Devore for cooling wheels and inspection of trains.

SECOND AND THIRD DISTRICTS

35. Within Los Angeles city limits, brakeman must ride on extreme forward end of all trains unless engine is on forward end and headed in direction train is moving. When engine is backing up on head end of train, brakeman will ride on rear of tender.

At Los Angeles: Rules and Regulations of Union Station must be observed within terminal limits.

SECOND DISTRICT

36. Automatic signals between San Bernardino and Arcadia and between Olga and Broadway. At meeting points between these limits, except as provided in Special Rule 37, trains holding main track will not line switch for opposing train until such train has passed next opposing signal.

Double track with automatic and interlocking signals between Broadway and Hobart.

37. Trains meeting at stations named below will observe the following:

Etiwanda: Eastward train holding main track, arriving first, should stop west of signal 934 until signal 932 assumes stop position.

Claremont: Westward train holding main track, arriving first, should stop east of preliminary board at Alexander Street until eastward train has passed next opposing signal.

Pomona: Westward train holding main track, arriving first, should stop east of preliminary board located 600 feet west of signal 1062 until signal 1063 assumes stop position.

Azusa: Westward train, arriving first, holding main track, should stop east of signal 1161 until eastward train has passed next opposing signal.

Kincaid: Westward train holding main track arriving first should stop east of signal 1171 until eastward train has passed next opposing signal.

Arcadia: Eastward train holding main track, arriving first, should stop west of home signal for P. E. crossing, until westward train has passed next opposing signal.

Chapman: Westward train arriving first holding main track should stop east of preliminary board until opposing train has passed Lamanda Park.

Lamanda Park: Eastward train holding main track, arriving first, should stop west of home signal for P. E. crossing until westward train has passed next opposing signal.

Olga: Westward train holding main track, arriving first, should stop east of preliminary board until eastward train has arrived at west switch.

38. Train movements on Metropolitan, Rialto, Cucamonga and Upland Foothill spurs must be authorized by train order.

39. Not more than two engines of the 3129 class, or heavier, may be coupled together over Bridge A-140 Los Angeles River and over Bridge C-136 Garvanza Viaduct.

40. At San Bernardino, Second District eastward trains must approach junction of Second and Third Districts near yard office prepared to stop, and "STOP" unless proceed signal is received, given with green flag or light. Such proceed signal merely indicates the route is properly lined.

THIRD DISTRICT

41. Double track with automatic signals between Rana and Colton. At Colton, time and train orders will apply at end of double track which is the first interlocked switch east of Southern Pacific crossing. Eastward siding at Colton is west of Southern Pacific crossing and westward siding is east thereof.

42. Manual Block between Colton Tower and Highgrove.

At Highgrove, Advance Manual Block Signal located at east end of siding, controlled by operator, will govern movements of eastward trains leaving siding, this signal approach lighted, circuit extends 500 feet west of signal.

Double track with automatic signals between Highgrove and Riverside. At Highgrove and Riverside, time and train orders will apply at end of double track.

Automatic signals between Riverside and Hobart, at meeting points, train holding main track will not line switch for opposing train to enter siding, until such train has passed next opposing signal.

43. Double track with automatic and interlocking signals between Hobart and Broadway.

At Hobart, time and train orders will apply at end of double track.

At Porphyry, westward train, arriving first and holding main track to meet an eastward train, must not pass Signal 221 until opposing train has passed next opposing signal, but when required to use the siding, may proceed to crossover opposite tool house, Corona, under provisions of Rule 93 and if occasion requires may be identified at latter point.

At Atwood, eastward train holding main track, to meet train moving via Olive District, will stop west of Signal 414 and will not line switch for Olive District until westward train has passed next opposing signal.

At Rivera, train occupying main track east of Signal 1512 prevents the clearing of the westward home signal at P. E. crossing, Los Nietos.

44. At San Bernardino, Third District eastward trains must approach junction of Second and Third Districts near yard office prepared to stop, and "STOP" unless proceed signal is received, given with yellow flag or light. Such proceed signal merely indicates the route is properly lined.

45. At Corona-Porphyry, engines working on the "high line" must stop and flag over Ontario Street when descending grade.

46. Train movements on Prenda, Olinda, Bastanchury, and La Habra Valley Spurs must be authorized by train order.

47. Nos. 51, 53 and 77 will back into Union Station.

FOURTH DISTRICT

48. Automatic signals between Fullerton and San Diego; at meeting points, train holding main track will not line switch for opposing train to enter siding, until such train has passed next opposing signal.

At Orange: Fourth District trains required to take siding will use Olive District main track between junction switch at Chapman Avenue and crossover west end of yard.

Train movements on Venta Spur must be authorized by train order.

OLIVE DISTRICT

49. No. 53 leaving Orange will back from station to wye on Olive District.

HARBOR DISTRICT

50. Train movements on Torrance Oil Spur must be authorized by train order.

51. Train movements between Watson and Pier "A" yard will be made under yard limit rules, and over Harbor Belt Line between McFarland Avenue and Pier "A" yard. Normal position of switches at connection McFarland Avenue lined for the Harbor Belt Line.

Should home signals at S. P. or P. E. Railway crossings, one mile east of West Thenard Tower, fail to clear, call Towerman for instructions. Telephone box, protected by switch lock, located at the P. E. Railway crossing.

SAN JACINTO DISTRICT

Highgrove 1.5 West	S. P. Crossing	Automatic Interlocker approach lighting. No distant signals. Speed limit 20 miles per hour. When stopped by home signal flagman must go to crossing and if no train is between home signals on S. P. or is seen to be approaching on S. P., open release compartment in door of relay house and operate the "Santa Fe" release according to instructions posted in compartment. After three minutes signal for waiting train should indicate "proceed" or red indicator light located on signal mast should light up showing that S. P. home signals are at "stop," in either case train may proceed. If neither happens and red indicator light at release does not light up, crossing may then be used only under flag protection in both directions on S. P. tracks.	
--------------------	----------------	---	--

"Approach locking" indicates that towerman cannot change route, (in less than two minutes) after an approaching train on main track has entered block.
